PETITION: SAVE MY LIFE & MY INHERITED PROPERTIES, FROM MEMBERS OF MY FAMILY, eg. DOMINIC MOK, IFEANYI MOK, PATIENCE MOK, aka mama sam & her children, Samuel Mok, Oge Mok, Joshua Mok etc.

Good day Sir,

My name is Francis Ogurmagbunam Mok, I am a citizen of Nigeria & a Co-Landlord in both Lagos & Delta States of Nigeria. It was not my intention to make my private issues public, as I hoped, we as family would resolve things privately. But having exhausted all diplomatic efforts, to no avail..& the wrongs and audacious criminality..keeps going from bad to worse..im left with no option, but to invite your urgent intervention..to save my life & my inherited properties from members of my family..particularly dominic, ifeanyi, mama-sam (my brothers wife & her children: 3 boys who just graduated from university) etc.

Sir, the issues effectively began shortly after our father (Chief Fidelis I Mok) died , shortly before then our first born went and stole our fathers filling cabinets, from his Yaba office..under the pretext that our father sent him to relocate them to the main house in Mushin,Lagos...all of which our father was neither aware of his robbery ..nor did he give him any such permission..emmanuel did all that to confirm..if our dad had changed his mind about removing him from taking a prominent position in the affairs of his properties. As our father disowned Emmanuel Mok..his 1st Son, when he was in the University of Benin..in the 1980's.

I found out about emmanuels robbery of my fathers office, when on my way from work at Niger insurance marina..as an insurance professional..I at time stopped by his office at iponri to say hello..before proceeding home. So one one of these visits, (particularly as now, my father had told him-to move into the family house in Mushin..as he wasn't doing well by himself) I saw my fathers filling cabinets all lined-up infront of emmanuels iponri shop..in Surulere. So I asked him what our fathers filling cabinets were doing there.(.as they had all being jacked, with all the files taken..I observed his office was a beehive of activities..as there was a lot of sorting going-on by himself)..he was surprised & asked me to leave his office..& so I returned home..to the house in Mushin & asked our father..who was still very alive & well..if he had given emmanuel the permission to move his cabinets to his shop at iponri..in shock our father screamed & gave me and my immediate brother-dominic..some money to go get the filling cabinets to the house in Mushin. Which we did.

Can you believe that when our father called emmanuel on phone throughout that day..emmanuel refused picking his calls, so our dad now told me to stand centry at the entrance gate, that as soon as he is sighted..im to call his attention..he must have heard about it, as emmanuel did not sleep in the house that day. Our father was very disappointed, saying he never should have allowed emmanuel into the house. Long & Short of it is that..emmanuel finally came home the next morning & an my father shot at the wall infront of him..this can be confirmed by neighbors & fellow landlord..still resident in the neighborhood..just incase his wife, children, dominic& others try to deny it..as dominic has been won over by emmanuel..through the bribery of being given a good share of our joint inheritances. Our/My Father, had a heart attack, from the issue, was rushed to the hospital & died shortly after. The death of my father marked the beginning of my problems in my fathers house, as my home became a place of constant threats to my life, assault, conspiracy & an open ground for the practice of impetuous criminality & wrong-doings. I have enumerated them below:

1) Emmanuel Confronted me in my apartment downstairs, about being favored by my fathers will..saying he/they (including dominic) will challenge it. This he did with the support of dominic..as they both came to my door together, knocking violently..looking for a fight & talking about property..the very next day we returned from our fathers burial in Asaba, delta state.
